DETAILED ACTION

Notice to Applicant(s)

This office action is responsive to the amendment filed on 2/9/06. As per request, claims
 and 19 have been amended. Claim 23 has been cancelled. Claims 12-22 are pending.
 The prior art submitted on 2/9/06 has been considered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 19 recites the limitation "non-negative" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Also, as applicant's argue on the amendment filed on 7/22/05, the concept of the invention is "non-negative acceleration". Therefore, claim 19, line 5, should insert the limitation "non-negative" in front of acceleration limiting.

Also, claim 21, line 2, should have "non-negative" in front of acceleration.

Also, claim 22, line 3, should have "non-negative" in front of acceleration.

3. Claims 12-18 are allowable.

Remarks

4. Applicant's remark on the amendment filed 2/9/06 has been fully considered. However, claim 19 still not correct to any lack of antecedent basis as above. Also, as per claims 21-22, need to be amended to have the limitation "non-negative", because this is the concept of the applicant's invention.
